

## INTERNAL OFFICE MEMORANDUM

**TO:** Robert Rivera  
**FROM:** Greg Wikholm  
**DATE:** 10/17/2023  
**RE:** Razorback LLC Sole Source for GSR Painting  
**CC:** Colin Eichenmuller, Martin Fields, Amanda Grisko

---

We have money budgeted to have our GSR's cleaned and painted this year and we would like to use Razorback LLC to perform the work using a sole source contract. They have a Continuing Services Contract with West Palm Beach that we can use that would bring the project in at a total price of \$142,917, this is well under the \$175,000 that we have in the budget for this work. The quote includes:

High pressure water blast to remove all contaminants and loose paint.

Coating Schedule: All coating materials by Tnemec coating manufacturer and applied at the manufactured recommended film thickness.

(2) concrete ground tanks and (2) aerators:

Stripe coat for hairline cracks - Tnemec Series 156

Full Finish Coat – Tnemec Series 1026

Also included – Pressure wash interior of the 1 million gallon ground tank interior to remove biological growth and sludge

We used Razorback in the past to clean and paint the elevated tank and they also painted much of the piping around the water plant. In both cases we were pleased with their performance. They are very responsive and being a local company (located in Tarpon Springs), they are very quick to resolve any issues we may have. For the few problems we encountered on the previous projects, the response was immediate and often addressed the same day. It is in the City's best interest to continue using Razorback for the City's Storage Tank Painting needs.
