

### Small Municipal and County Government EA Program

Esri has an enterprise agreement program designed to make GIS affordable for small city and county governments (those that have populations of 250,000 or less). The SMALL MUNICIPAL AND COUNTY GOVERNMENT EA PROGRAM is designed to provide these small government organizations similar benefits to those that larger organizations have realized from our enterprise agreements (EAs) over the last several years. Our goal is to eliminate the cost barrier that many times stand in the way of these organizations fully realizing the benefits and value of GIS.

1. The cost for these enterprise agreements are based on the population of the city or county.

POPULATION	PRICE (per year)
<25,000	\$25,000 per year

2. This is a non-negotiable program with a specific license agreement and contract.

1. The SMALL MUNICIPAL AND COUNTY GOVERNMENT EA PROGRAM provides eligible organizations with:

- The following licenses in unlimited quantity:
  - ArcGIS Desktop - Basic, Standard and Advanced
  - ArcGIS Desktop extensions - 3D Analyst, Spatial Analyst, Geostatistical Analyst, Publisher, Network Analyst, Schematics, Workflow Manager and Data Reviewer
  - ArcGIS Enterprise – Standard and Advanced (Workgroup and Enterprise)
  - ArcGIS Enterprise extensions - 3D Analyst, Spatial Analyst, Geostatistical Analyst, Network Analyst, Workflow Manager
  - ArcGIS Enterprise Optional Server - Image Server
  - ArcGIS Engine
  - ArcGIS Engine Extensions - 3D Analyst, Spatial Analyst, Network Analyst, Schematics
  - ArcGIS Runtime - Standard
  - ArcGIS Runtime extensions - 3D Analyst, Spatial Analyst, Network Analyst
