RE: Crossbow Ln. & Hills Dr. Stormwater Pipe Lining Proposal

Robert,

During a heavy storm in the first week of September, 2017, Public Works staff became aware of a section of stormwater pipe that had sustained significant damaged due to the heavy rain event. The location of the stormwater pipe is in the Jasmine Hills neighborhood, located on Crossbow Ln. (please see the attached map for location details). After investigation and inspection by use of City equipment, it was determined that the best solution for pipe repair would be to have the interior of the stormwater pipe lined by a qualified contractor. Public Works staff then made contact with Layne Inliner and had them come out to inspect the damaged pipe as well. Layne Inliner determined that the pipe could be lined, and their proposal for having the work done is attached. Please note that the proposal from Layne Inliner is consistent to what they normally charge the city for the budgeted annual sewer lining contract. Please let me know if you have any further questions, and thank you.

Barret H. Doe

PWD Assistant Director
