Purchase Division Form(02/05)

Subj: SOLE SOURCE JUSTIFICATION REQUIREMENT(S)

From: (Dept.) 111
To:

Date: 2/13/19

Ref: (a) Requisition #

Vendor: John Mader Enterprises

Item: High Service Pump

Est. Cost: \$36,042.50

Required Delivery Date:

In accordance with reference (a) the following is submitted. (Continue on reverse if necessary)

a. A brief description of intended use or application.

Reclaimed water pump

b. Description of the critical or unique features (patent, copyright, proprietary, ect.) which show no other item or source can satisfy the City's need. In the past we have used Flygt Pumps exclusively for submersible applications. Cost for parts has risen to the point where we needed to switch brands. The Wilo Pump is the only pump we could find that can match the quality and reliability of the Flygt. The initial cost and the cost of parts is much less than the Flygt.

c. Describe alternatives reviewed which led to the conclusion that only this particular source of product can meet the requirement. We have standardized on Wilo brand pumps for all submersible application at the plant. These pumps must be purchased through the area distributor, Mader Electric

The above information must be certified as to the accuracy of the facts and representations contained in the Request
