A

description of the proposed mural,

The mural will cover the entire East Wall of the Fitzgerald's Building, excluding the signage from the Beauty Salon and Laundromat. The theme for the mural is a historical representation of the Tampa and Gulf Coast Railroad. The train is set in front of a beautiful deep orange and red sunset. We will be offering facial

recognition opportunities to the community and sponsorships will be taken for these spots in order to finance the mural.

History:

February 1912, the Week's Brothers of Brooksville completed a 7.2 mile branch to the trainline and trains were running from Tarpon to Elfers. In November 1912, a depot was built in down town New Port Richey. However the building of a bridge over the Pithlachascotee River delayed the train's arrival to the city for another year. In December 1912 the Weeks brothers sold their new 7.2 mile branch line to the T&GC Railway, which, by the summer of 1913, had completed construction of the bridge over the river and semi-weekly service to the city began.

Paint and topcoat:

Exterior Latex Paints will be used for the mural base coat and artwork.

Top Coat:

A low Luster Exterior Water Based Sealant will be applied when the mural is complete.

Procedures:

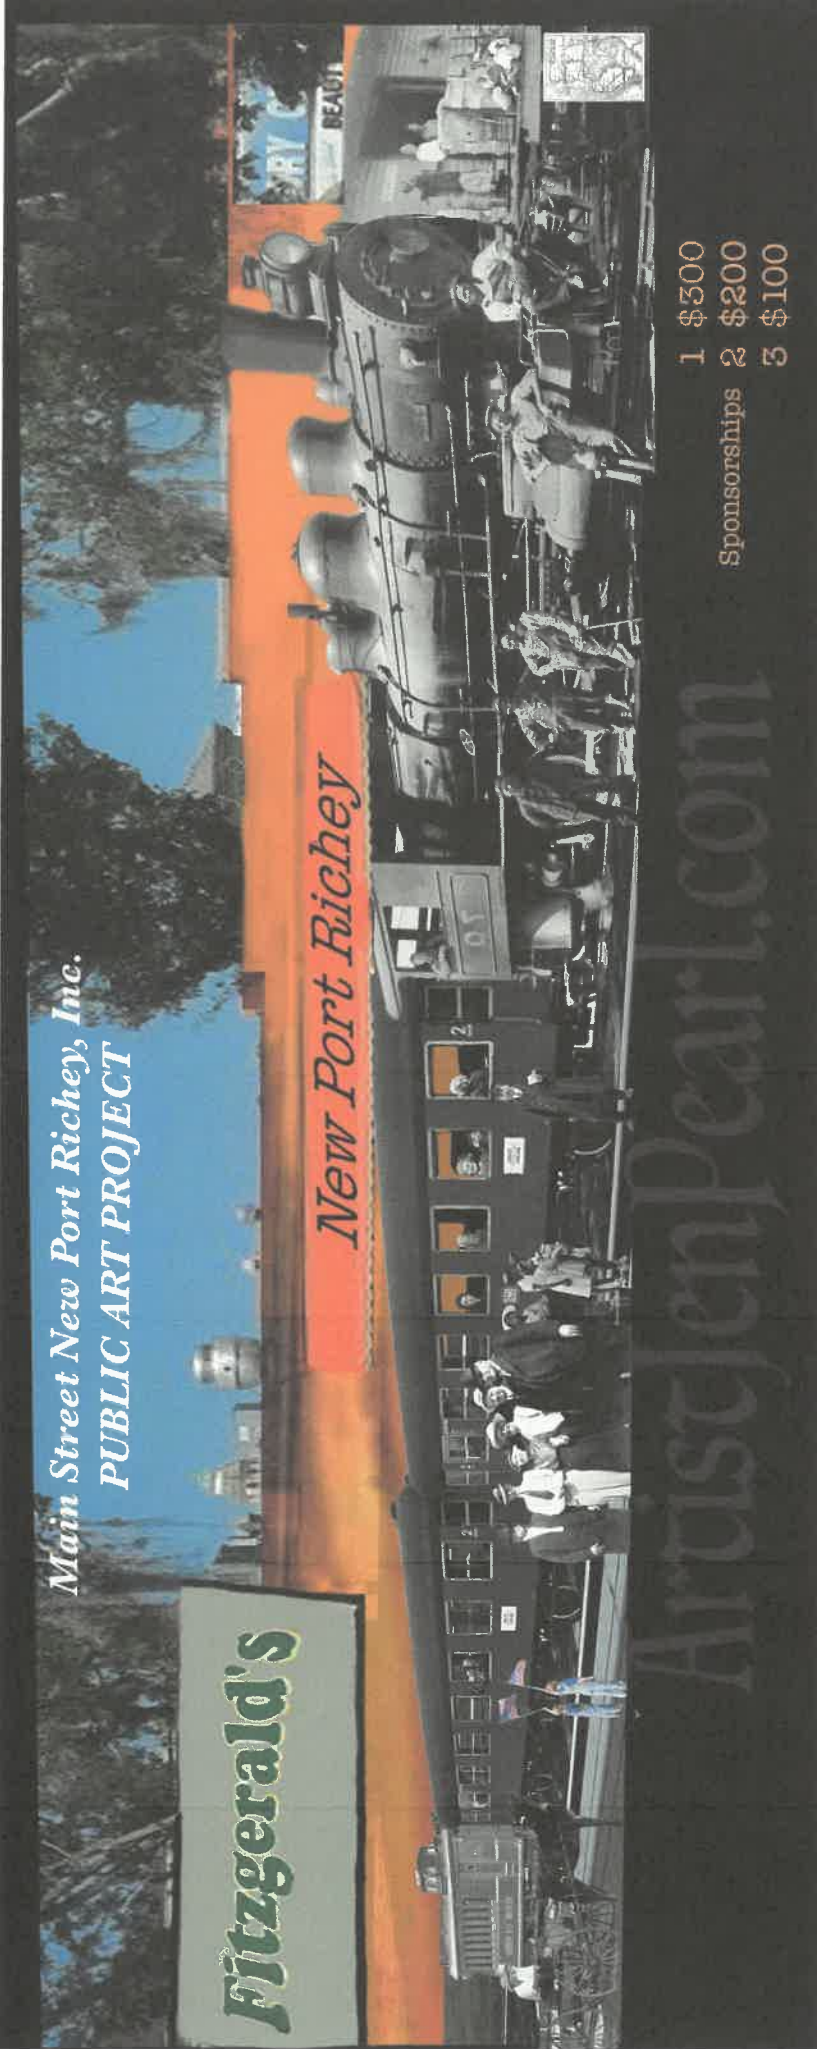

- The wall will be pressure Washed
- Application of an exterior base coat
- Artwork will be mapped out
- The details and Art will be executed
- Approval of the overall design by the client
