Re: FY2020 Thompson 4" Dry Prime Solids Pump

Bill,

Thank you for your interest in Thompson Pump & Manufacturing and the products and the services that we provide. We understand that this pump will be utilized by the City of New Port Richey for by-pass pumping/water moving applications within the city. Please see attached specification sheet for performance capabilities.

Per your request, we are providing 2020-21 Florida Sheriffs Association Contract Package Specification pricing for (1) Thompson Pump Model 4JSVM-DIST-4LE2T-MC, a 4" Trailer Mounted, sound attenuated, EPA Final Tier 4 engine By-Pass Pump. Thompson's innovative priming system preventing blow-by of sewage, effluent and waste from discharging onto the ground. This system, with Thompson's OVT system, offers 97 SCFM air handling capabilities for quick priming.

The net price is derived from our 2019 Florida Sheriffs Association Contract Bid Award # FSA20-EQU18.0-Heavy Equipment, Item 276. This Florida based government contract enables the City of New Port Richey to avoid the hassle and expense of purchasing this pump through the public bid process. The FSA contract basically works like a "piggy back" for our equipment. You can order this unit by simply putting our FSA bid award number on your purchase order. **Our FSA contract number is: FSA20-EQU18.0-Heavy Equipment, Item 276. Please add this contract number to your order.**

Should you require further information or have any questions, please contact me at 407-473-2002 or [tguerra@thompsonpump.com](mailto:tguerra@thompsonpump.com).

Sincerely,

*Terry Guerra*
