Subject: Marine Pkwy Potential Estimate

Hello Rodd-

As discussed, FDOT provided the following information: The Harn Overpass, which is a similar typical section of US 19 to the south of Marine Pkwy. located in Clearwater. The original estimate for the Harn Pedestrian Overpass was \$5.3 million and the lowest bid came in at \$7.9 million (50% over). Therefore, the original estimate of Marine Pkwy Overpass for \$6 million is rather low, more than likely your lowest bid will be between \$9-\$10 million.

Hope that assists with cost estimates for this project.

Thank You,

Tania Gorman
