**Subject:** Secured Fenced Area

Hi Mike,

Here a crude drawing of what we were thinking. It's the far east end of the covered overhang area. The fencing has to go high enough where bicycles/property can't be passed over the top. Bottom of the fencing has to be secured so that it can't be pulled up easily.

Let me know if you have any questions. The measurements are approximate and clearly the drawing is not to scale.

Thank you,

Paul

Mike,

I need two more quotes for the fencing job we discussed yesterday for the bikes in the back lot. Let me know if you have them already or need to get them scheduled?

Paul, attached is your quote for your fencing that your requesting for the back parking lot for your bikes. Are we doing the parking lot and this fencing?

Thanks
