Process:

A pre-application meeting must be held with City Staff to ensure the application is complete. Applications must be submitted on Friday by 10:00 am. Once deemed complete, the application will be scheduled for review by the Development Review Committee (DRC). The DRC will review the application for compliance with codes and regulations. Changes may be suggested and additional reviews by the DRC may be necessary. Following the DRC, the case will be scheduled for review by the City Council.

Conditional uses differ from special exceptions in that the use may not be appropriately placed in all areas of commercially zoned districts and may have little to no impact on residential uses. However, all applications must be reviewed on the following criteria:

1. That this conditional use/special exception is specifically permitted in the zoning district regulation.
2. That the granting of this conditional use/special exception, will not adversely affect the public health, safety or welfare of the community.
3. That the granting of this conditional use/special exception, is consistent with the intent of the zoning district.
4. That the requirements of the district in which the use is to be located shall be in compliance.
5. That excessive traffic will not be generated on residential streets.
6. That the proposed use will not adversely affect the residential character of existing neighborhoods.
7. The proposal consistent with the goals and objectives of the Comprehensive Plan?

The City Council will make the final decision on all Conditional Use and Special Exception requests.

The hearing process to review this application is considered quasi-judicial and operates much like a court of law. The City Council members act in a similar capacity as a judge and must govern themselves in accordance with the basics of due process in making decisions. Contact with any of these members about this application should be avoided. These members have been instructed to avoid all such conversations with applicants or people in opposition to or support of any Conditional Use/Special Exception Application. Decisions will be made based on evidence and testimony that is presented at scheduled public hearings and not on information gathered outside of these hearings.
