Submittal Information:

(Please address the following information on a separate sheet and attach to this application)

Guidelines for Granting a Rezoning. LDC § 5.01.11.

The development department, development review committee, and land development review board shall consider all of the following guidelines when making a recommendation to the city council on a rezoning application, and the city council shall consider all these guidelines in determining whether to adopt an ordinance granting such rezoning:

1. Whether the proposed zoning district is one (1) of the zoning districts intended to implement or be consistent with the future land use map designation of the property;
2. If more than one (1) zoning district implements or is consistent with the future land use map designation of the property, whether the proposed zoning district is the most suitable zoning district;
3. Whether there are substantial reasons why the property cannot be used in accordance with its present zoning district, or the existing zoning district is otherwise unsuitable;
4. Whether the proposed zoning district is consistent with the character of the existing land use pattern;
5. Whether the proposed zoning district abuts a property with a zoning district similar in intensity to the proposed zoning district, or serves as a suitable transition zoning district between two (2) or more different abutting zoning districts;
6. Whether there are substantial changed or changing conditions in the character of the area where the property is located so that the proposed zoning district is now suitable;
7. Whether based upon the property's size, shape, or characteristics the proposed zoning district is out-of-scale with the surrounding area;
8. Whether the proposed zoning district is premature, based upon the existing conditions in the surrounding area;
9. Whether there is a substantial public need or purpose for the proposed zoning district consistent with the public health, safety and general welfare;
10. Any other factors that may be relevant to the rezoning, such as its location within an enclave, recent annexation into the city, or to conserve the value of buildings and natural resources;
11. The totality of the circumstances; and
12. Any competent substantial evidence presented at the public hearings.

Consistency with Concurrency: The following calculations shall be used to **determine the projected demand** of the proposed project on the applicable public facility/service. The calculations are listed by facility/service type. *(Please fill in blanks.)*

Stormwater Management. Refer to the Stormwater Management and Erosion Control Policy and Procedures Manual for standards necessary to comply: LOS = 25-year, 24-hour storm event.

Transportation. Refer to the New Port Richey Comprehensive Plan for the adopted Level of Service Standards.

Refer to the Land Development Code for the **requirements of a Transportation Study.**

1. Determine the number of trips generated by the proposed project during the **PM PEAK** hour using the most recent edition of the ITE "Trip Generation" report with no adjustments for internal capture or passerby trips. **Include your calculation(s) here:** _____.
2. If the total number of trips is equal to or greater than 50 trips, then a transportation study shall be prepared. The report shall be signed and/or sealed by either a registered professional engineer or a member of the American Institute of Certified Planners.
 - a. If no study is required, the applicant is required to provide only the existing directional **PM PEAK** hour traffic volumes and level of service for the roadways link to which project driveways connect. This information shall include project traffic. **Provide this information here:** _____.
 - b. The data shall be in conformance with Notes 3a and 3b of "Existing Conditions" contained in the Land Development Code.
3.
 - a. Existing directional **PM PEAK** hour traffic volumes and LOS on all existing collectors/arterials in study area. **Provide information here:** _____.
 - b. Existing turning movement volumes at the impacted intersection(s) and intersection LOS.

Process:

A pre-application meeting will be held with City Staff to ensure the application is complete. Applications must be submitted on Friday by 10:00 am. Once deemed complete, the application will be scheduled for review by the Development Review Committee (DRC). The DRC will review the application for compliance with codes and regulations. Changes may be suggested and additional reviews by the DRC may be necessary. Following the DRC, the case will be scheduled for review by the Land Development Review Board (LDRB) and City Council.

The hearing process to review this application is considered quasi-judicial and operates much like a court of law. The LDRB and City Council members act in a similar capacity as a judge and must govern themselves in accordance with the basics of due process in making decisions. Contact with any of these members about my application should be avoided. These members have been instructed to avoid all such conversations with applicants or people in opposition to or support of any Land Use Plan Amendment. Decisions will be made based on evidence and testimony that is presented at scheduled public hearings and not on information gathered outside of these hearings.

Attendance at meetings:

The applicant or applicant's representative needs to be present at all meetings including DRC, LDRB and/or City Council. Call Development Department Staff at 727-853-1039 to find out when this case will be scheduled for these meetings.

Submittal Information Authorization to visit the property:

Site visits to the property by City representatives are essential to process this application. The Owner/Applicant, as notarized below, hereby authorizes the City representatives to visit, photograph and post a notice on the property described in this application.
