# FACT SHEET

## MOTOROLA SOLUTIONS

Motorola Solutions is a global leader in mission-critical communications. Our technology platforms in communications, command center software, video security & analytics, and managed & support services make cities safer and help communities and businesses thrive.

We have a rich history of firsts, including pioneering mobile communications in the 1930s, making equipment that carried the first words from the moon in 1969 and developing the first commercial handheld cellular phone in 1983.

Today, our global employees are committed to designing and delivering the solutions our customers refer to as their lifeline. At Motorola Solutions, we are ushering in a new era in public safety and security.

## INTRODUCING THE M500 IN-CAR VIDEO SYSTEM

A groundbreaking leap forward in  
**awareness, safety, and efficiency.**

## MISSION-CRITICAL DESIGN

USE WITH CONFIDENCE IN THE  
TOUGHEST CONDITIONS

Built on exacting research and real-world feedback, the M500 is designed to withstand the toughest conditions and to work intuitively in the most demanding situations.

# DESIGN

The easy-to-install system has a minimal footprint, with small form-factor devices providing unobstructed views.

Ultra-durable camera mountings lock into position to resist tampering and impacts.

An intuitive user interface makes it simple to operate, with no function more than three taps away.

Footage is securely encrypted - at rest and in transit - to combat cyber threats.

Even if your vehicle is in a serious collision, the system can switch to a built-in UPS to continue capturing evidence for those vital extra seconds.

## INDUSTRY-LEADING VIDEO

### CATCH THE CRITICAL DETAILS OTHER CAMERAS MISS

With industry-leading video capture and playback, the M500 delivers a clear record of every incident.

The high-resolution front camera and cabin camera deliver the high-resolution footage you need to precisely document events as they unfold.

The front camera creates wide angle and focused streams, each in dual resolution, to ensure you capture the whole picture.

That visual detail and data drives the M500's AI capabilities, so it can accurately analyze events, flag threats, and identify search targets in real time.

The cabin camera's built-in infrared floodlight illuminates the passenger compartment to record every action that occurs.

And the ultra-high resolution touchscreen control panel lets you monitor what's out there, review past events, and see exactly what you need to know.

## EMBEDDED INTELLIGENCE

KNOW WHAT'S OUT THERE  
WITH REAL TIME AWARENESS

Far more than an eye recording what it sees, the M500 is a brain analyzing everything around you and flagging what you need to know.

The M500 continuously scans your surroundings using powerful video analytics to identify search targets and threats in real time.

Read license plates from up to 40 feet away. Get hit notifications from hot lists you manage in Vigilant PlateSearch.

Inside the vehicle, object detection analytics activate the cabin camera if and only if the back seat is occupied.

Exhaustive testing helps ensure our algorithms provide accurate, unbiased results so you can serve your communities fairly and responsibly.

A combination of cloud and edge algorithms are carefully architected to give you the quickest, most accurate results.

You always have critical information you need to make smarter, faster decisions, to keep everyone safer.

# POWERFUL ECOSYSTEM

CONNECT YOUR TECHNOLOGY  
TO WORK SAFER AND SMARTER

As part of the Motorola Solutions technology ecosystem, the M500 amplifies the capabilities of the mission-critical technology you already count on.

## STREAMLINED EXPERIENCE

### SIMPLIFY YOUR OWNERSHIP FROM END-TO-END

The M500 gives you the ease and simplicity you expect from the latest technology.

The user interface is built to a scientific design system that delivers a consistently effective experience across our entire ecosystem. Greater consistency means less training, more productivity, and faster operations.

**ADD NEW AI APPLICATIONS, CAMERAS, SENSORS, VOICE CONTROLS, AND INTEGRATIONS AS YOUR NEEDS CHANGE.**

The moment you log into the M500, your settings and preferences are automatically applied - whichever vehicle you're in.

The system is easy to install and can be remotely programmed and updated via the cloud or WiFi connection.

Video can be livestreamed\* and uploaded via broadband connection directly into the CommandCentral platform.

Our comprehensive warranty and support services give you complete peace of mind.

And the entire system is designed to evolve alongside you. You can easily add new AI applications, cameras, sensors, voice controls, and integrations as your needs and operations change.
