RE: Auction Vehicles

Currently, the City has twelve (12) vehicles/equipment items stored at the Fleet Maintenance Garage. All of these vehicles/equipment have been identified by the Fleet Maintenance Supervisor or Department Head to have out lived their usefulness due to wear and tear or high mileage.

It is my recommendation the Fleet Maintenance Division perform an auction with the assistance of Public Surplus, a web base Public Auction House. All proceeds collected from the auction would belong to the City with the exception of advertizing. Public Surplus worked very well for the City in the past auction.

The following vehicles and equipment have been identified and meet the City's criteria for replacement and sale:

1. 1989 Tandem Dump Truck -Streets & Right of Way Division- 1FDYU82AOKVA18480
