Re: City of New Port Richey  
Firefighters' Retirement System

Dear Karen:

In response to Scott Christiansen's letter dated January 3, 2024, we have reviewed the revised proposed Ordinance (identified on page 4 as dm\npr\fire\12-05-23.ord) to including but not limited to, the following proposed changes:

1. Section 17-36, Definitions, is being amended to amend the salary definition to clarify the determination period for maximum annual compensation for members with less than 12 months of service during a fiscal year, as provided for in the Internal Revenue Code and its associated Treasury Regulations.
2. Section 17-39, Finances and Fund Management, is being amended to provide language regarding Board discretion on seeking recovery of inadvertent overpayments from the Fund, as permitted by Secure Act 2.0.
3. Section 17-42, Pre-Retirement Death, and Section 17-50-1, Minimum Distribution Benefits are being amended to provide for recent changes to the Internal Revenue Code in the Secure Act 2.0., changing the required contribution date from age 72 to the applicable age provided for in the IRC, as amended from time to time.

Because the changes do not result in a financial impact on the funding requirements, it is our opinion that a formal Actuarial Impact Statement is not required in support of its adoption. However, since the Division of Retirement must be aware of the current provisions of all public pension programs, it is recommended that you send a copy of this letter and a copy of the fully executed Ordinance to each of the following offices:

Mr. Keith Brinkman  
Division of Retirement  
Bureau of Local Retirement Systems

Mr. Steve Bardin

The undersigned is familiar with the immediate and long-term aspects of pension valuations, and meets the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein.

If you have any questions, please let me know.
